PRODUCT OVERVIEW

Made from high-quality CRCA steel and manufactured using CNC fabrication, forming, welding, and powder coating technology, this 9U rack ensures durability, security, and optimal performance for your equipment.

RACK SIZE

9U

550 mm (W) × 630 mm (D)

KEY FEATURES

Adjustable Mounting Verticals

Adjustable 19" equipment mounting verticals provide better mounting flexibility and maximize usable mounting space.

Depth Adjustable Slots

Depth adjustable mounting slots for easy installation and configuration.

Ventilation & Cable Entry

Top and bottom panel with ventilation and cable entry facility.

Premium Powder Coating

Powder coated finish with pre-treatment process meeting all industry standards.

Standard Compliance

Compatible with all equipment conforming to IEC 60297 / DIN 41494 standards.

Robust Construction

Bolted type construction for strength, stability and long term reliability.

TECHNICAL SPECIFICATIONS

 Rack Standard	Conforms to IEC 60297 / DIN 41494 or equivalent ISO standard	 Mounting Angle	19" Mounting angles made of formed steel
 Construction	Bolted type construction	 Standard Finish	Powder Coated
 Front Door	Lockable Toughened Glass Door	 Top & Bottom Cover	Bolted Top and Bottom to Side with ventilation and cable entry cut out
 Material Thickness	Basic Frame: CRCA Mounting rail: 3 mm Side panel: 2 mm Top/Bottom: 2 mm	 Static Load Capacity	Minimum 30 kg uniformly distributed load (UDL)
 Equipment Mounting	DIN / IEC standard mounting arrangement	 Protection Class	IP40 as per IEC 60529 (tested by NABL-accredited laboratory)

STANDARD ACCESSORIES (SUPPLIED WITH RACK)

Power Distribution Units (PDU)

Cable Manager

Cooling Fan Unit

Mounting Hardware Set

PROTECTION CLASS

IP40

as per IEC 60529
(tested by NABL-accredited laboratory)

KEY BENEFITS

- 

Space Efficient
Wall mount design saves valuable floor space.
- 

Secure & Reliable
Lockable glass door and robust build for maximum protection.
- 

Easy Installation
Adjustable slots and standard mounting for quick and easy setup.
- 

Built to Last
High-quality steel and premium finish ensure long service life.

 **Quality You Can Trust.** Built to meet global standards for safe, reliable and efficient performance.
