ABOUT THIN CLIENT

The power of a PC, without the complexity. Thin clients are compact, energy efficient and productive desktops with all the dynamic user-experience of a PC-without the day-to-day complexities and risks associated with one.

AT-Thin clients have no moving parts. Their service lives are extended beyond those of comparable PCs and the noise from fans and hard drives is eliminated. Better still, their low power consumption means low-heat output enabling comfortable working environments with a reduced dependence on costly carbon heavy air conditioning - often leaving workplace cooling achievable through natural ventilation.
